VEXOS Inc., a Global Electronics Manufacturing Services (EMS) provider, is pleased to announce that Valley Associates Global Security Corporation, one of the leading safety/security solution providers, has partnered with Vexos as a reseller of the MVM Ventilator for the Americas.

Vexos will be manufacturing the MVM Ventilator at its manufacturing sites in LaGrange, Ohio and Markham, Ontario under an exclusive license from the Elemaster Group for the Americas.

The MVM Ventilator, developed by the International MVM Group, is an innovative, simple but powerful ventilator designed to address the specific needs for the care and recovery of severely affected COVID-19 patients.

The MVM Ventilator will be added to Valley Associates wide range of safety/security products and services to support medical facilities of all sizes and types in North and South America.

“Vexos is pleased to announce Valley Associates as our strategic partner to assist in the promotion, sales & distribution of the MVM Ventilator through their extensive channels in the Americas,” said Cyril Fernandes, Senior Vice President of Business Development, Vexos. “Valley’s expertise, knowledge and experience in providing emergency medical equipment to the healthcare community will be vital in helping to address regional efforts in the Americas to combat the Covid-19 pandemic”

“We look forward to working closely with the VEXOS team to ensure that their MVM ventilators are distributed and serviced efficiently during this time of COVID-19 pandemic.” said Rob Mills, Chief Executive Officer “We are proud to partner with VEXOS and appreciate their effort to provide this critical equipment to help support communities in need around the world.

About VEXOS Inc., Vexos, is an award-winning global Electronics Manufacturing Services (EMS) and Custom Material Solutions (CMS) company, providing complete end-to-end supply chain management solutions in electronic and mechanical products for Original Equipment Manufacturers (OEMs) and new emerging technology companies. Vexos services extend over the entire electronic product life cycle, from value engineering services for product development to prototyping and New Product Introduction (NPI) through to the growth, maturity, and end-of-life phases with a strong focus and commitment to quality and customer service satisfaction. With manufacturing facilities in the United States, Canada, China, and Vietnam, Vexos can efficiently compete in today’s marketplace, primarily focused within the medical, industrial, automotive, computing, communications, and

aviation/defense markets. To learn more please visit us at www.vexos.com
