

# Elemaster: the ISO 14001 certification has been extended to the fast prototyping factory

Elena Corti 17 May 2024

**Elemnaster** announced that the **ISO 14001 certification not only has been renewed for its headquarters**, but the company also **extended it to its factory dedicated to fast prototyping** in Monteverchia (Italy). “Elemaster

– Sergio Sala, Elemaster Group Quality & Process

Manager, commented – positions itself as an indispensable

point of reference for all its customers worldwide, offering a qualitatively certified service

in all its plants. So we are really proud to have confirmed and even strengthened this

important certification, the internationally recognized standard for Environmental

management systems, showing our longstanding commitment to maintaining a high

standard of sustainability in our operations”.
