India, Sept. 2 -- Syrma SGS Technology Limited, a leading Indian electronics systems design and manufacturing company, has signed a Joint Venture Agreement with Italy-based Elemaster S.p.A Tecnologie Elettroniche, a global leader in electronics design and manufacturing.

The new entity, Syrma SGS Elemaster Private Limited (currently Syrma SGS Design and Manufacturing Pvt Ltd), will create a dedicated India-focused platform to serve high-reliability customers in the railway, industrial, and medical electronics sectors. The facility, located in Bengaluru's Bommasandra Industrial Area, will initially span ~20,000 sq. ft. and be equipped with SMT, THT, and box-build assembly lines.

The partnership brings together Syrma's scaled and cost-effici...
