**Elemaster Group Electronic Technologies** has announced the acquisition of 100% of **C.R.& C. S.R.L. con Socio Unico** and a 25% stake in **GREENWAVES S.R.L.**, marking a significant step in the Group's strategic development.

Based Northern Italy, C.R.&C. brings over 40 years of engineering expertise in the production, repair, remanufacturing and testing of electronic equipment.

At the same time, the partnership with GreenWaves strengthens Elemaster's capabilities in RF, microwave and radar technologies, including advanced design and testing solutions for systems operating above 100 GHz.

C.R.&C. and GreenWaves will operate within the Elemaster ecosystem as a centre of excellence for RF systems, contributing specialized expertise in high-frequency production and testing, as well as advanced processes such as wire bonding, die attach and special welding.

**Valentina Cogliati**, CEO of Elemaster, commented that the acquisition strengthens the Group's capabilities and reinforces its commitment to addressing key industry challenges such as technological obsolescence and the need to ensure long-term system reliability.
