[Syrma SGS Technology Limited](#) and [Elemaster Group Electronic Technologies](#) have inaugurated a new 20,000 sq. ft. high-reliability electronics manufacturing facility in Bommasandra, Bengaluru, through their joint venture, Syрма SGS Elemaster Private Limited.

The facility is equipped with advanced SMT, THT and box-build assembly lines to support growing demand across railways and transportation, industrial electronics, energy and medical electronics. The partnership combines Syрма SGS's manufacturing scale in India with Elemaster's engineering and high-reliability manufacturing expertise.

The new facility is aimed at supporting both domestic and global OEMs with high-quality electronics manufacturing in India, while strengthening India-Italy industrial and technology collaboration.

Thank you, [Machine Maker](#), for highlighting this important milestone. The new Syrma SGS Elemaster facility in Bengaluru strengthens our ability to support domestic and global OEMs with high-reliability electronics manufacturing, while reinforcing the value of the India-Italy industrial partnership
