Syrma SGS Technology Limited and **Elemaster Group Electronic Technologies** have inaugurated a new high-reliability electronics manufacturing facility in Bengaluru, Karnataka. Located in the Bommasandra Industrial Area, the facility covers 20,000 sq. ft. and includes Surface Mount Technology (SMT), Through-Hole Technology (THT), and box-build assembly lines.

The facility is intended to support high-reliability electronics requirements across railways and transportation, industrial electronics, energy, and medical electronics. The joint venture combines Syrma SGS's manufacturing and supply-chain capabilities in India with Elemaster's engineering, technology, and electronics manufacturing expertise.

Thank you, [PCB Directory](#), for highlighting this development. The new Bengaluru facility strengthens Syrma SGS Elemaster's ability to support high-reliability electronics through integrated SMT, THT and box-build capabilities, combining manufacturing scale with engineering expertise for complex applications across multiple strategic sectors
