Syrma SGS Technology and Italy's Elemaster Group have inaugurated a 20,000-sq-ft high-reliability electronics manufacturing facility in Bengaluru through their joint venture Syrma SGS Elemaster.

The Bommasandra facility, equipped with SMT, THT, and box-build assembly lines, will cater to railway, transportation, energy, industrial, and medical electronics, supporting domestic and global OEMs. Valentina

Cogliati, CEO, Elemaster S.p.a has called India an important and growing market for Elemaster and for our global customers, adding that this facility provides a strong foundation to support that opportunity.

“By combining Elemaster’s engineering, technology, and high-reliability manufacturing expertise with Syrma SGS’s scale and strong presence in India, we can create an effective platform for serving both existing and new customers. We see significant long-term potential in India and are pleased to build this journey together with Syrma SGS.”
